Franchisee

We use Benson & Hedges 25 as an example. Let's say the capping for the promotion is 1 packet.

Brand	Sub Cat	Start Date	End Date	Days	States	Packet Promo Rebate	Carton Promo Rebate
BENSON & HEDGES 25 CIG	BH25	02-Sep-19	15-Sep-19	14	National	\$3.50	\$28.00

Find the corresponding promotion and put 1 in the field of Maximum Packet Qty and save.

If we sell another Benson & Hedges 25, POS will give us a warning of capping.

Now, if we choose the first option, the promotion will be disabled until we reactivate it. The price of Benson & Hedges 25 will back to the normal retail price (before promotion).

Brand	Sub Cat	Start Date	End Date	Days	States	Packet Promo Rebate	Carton Promo Rebate
BENSON & HEDGES 25 CIG	BH25	02-Sep-19	15-Sep-19	14	National	\$3.50	\$28.00

For example, the capping for week 1 is 1 packet and 7 packets for week 2. When you disable the promotion after you reach the capping on week 1. You need to reactivate that promotion on the following Monday (9th September) and enter 7 for the new capping.

If we try selling a packet of Benson & Hedges 25 again, promotion will keep going until the new capping is reached. The POS is capable to convert carton to packets, the warning message will still work if we try to sell a carton (8 packets in this case, Benson & Hedges 25/200).
