TSG POS - 1.6.12-...

12:13 PM
16/08/19

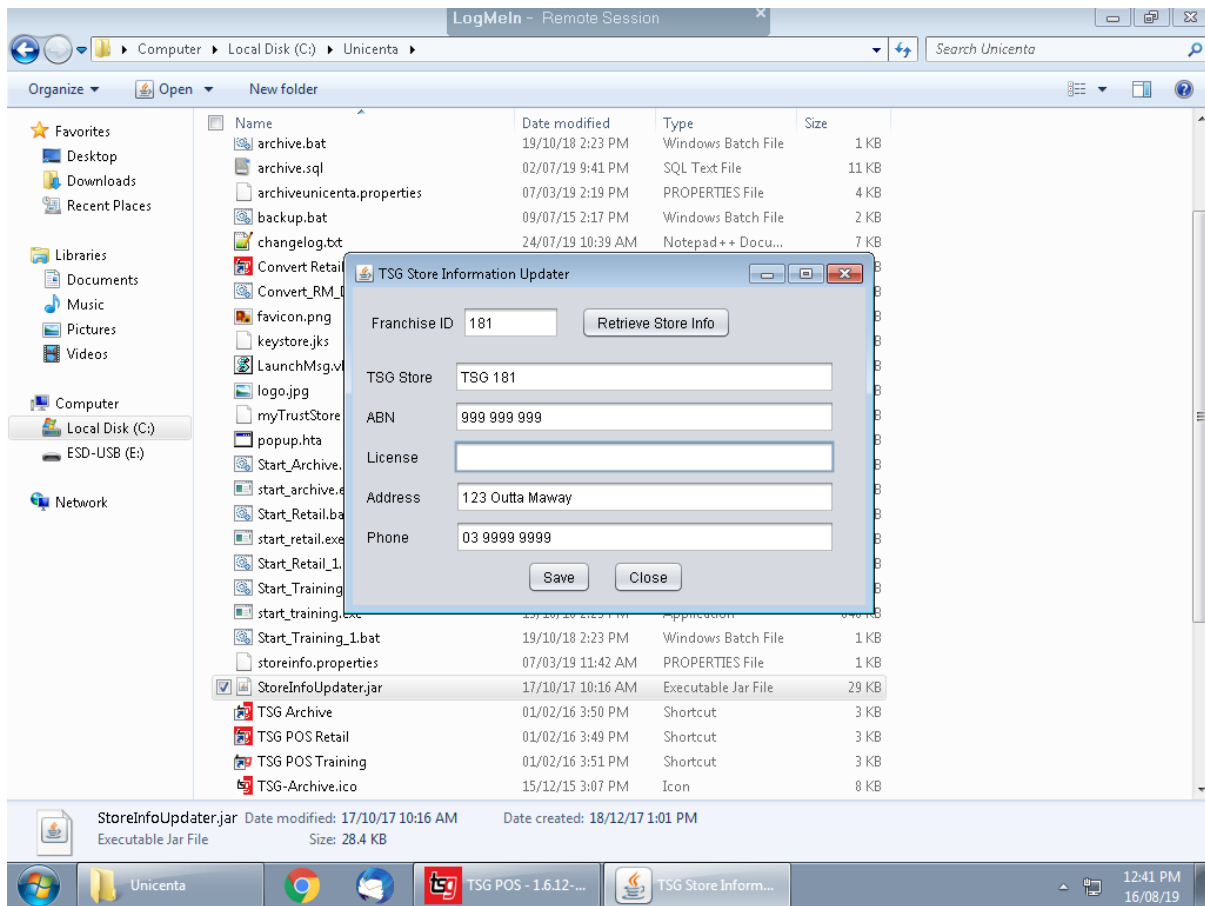

1 Locate the store info updater

Click on my computer and locate C:\Unicenta\StoreInfoUpdater

2 Open up the store info updater

Double click on the StoreInfoUpdater and the updater should look like this

3 Update your store information

Update your store information and click save.

4 Restart the POS

5 Check the receipt again.

The screenshot displays the TSG POS software interface. At the top, the window title is "LogMeIn - Remote Session" and the application name is "TSG POS". The date and time are "16-08-2019 13:00:23". A search bar contains the ticket number "2". Navigation buttons include "Search", "Recent Tickets", "Edit", "Refund", "Print Docket", and "Print Invoice".

The main content area shows a receipt reprint for ticket #2. The receipt text is as follows:

tsg
123 456 789
TSG Test Store
123 test road
03 9998 1234
Reprinted Ticket

Receipt: 2
Date: 16/08/2019 12:12:35 PM

Item	Price	Qty	Value
Longbeach 40 Filter Pkt	\$50.95	x1	\$50.95
Items count: 1			
Total			\$50.95
Cash			\$50.95
Tendered:			\$50.95

At the bottom, a notification bar shows "8 New Message(s)" and "Sync complete. Uploaded 0 sales records. 0 promo added. 0 promos recalled." The system tray includes icons for Unicenta, Chrome, and the TSG POS application, along with the time "1:00 PM 16/08/19" and the user name "Franchisee".
