- This much-requested feature has been added to the TSG POS.
- Stores can now set up a 2 For promotion in their pos which can also add as a top up for an existing promotion.
- Before you start, please ensure, at minimum, that you are on version 37 of the POS - 1.6.37. To confirm, simply check the top left-hand corner of POS window:

How to add a 2-For-Promo on your POS?

- To add the promotion in the POS, simply expand the menu on the top right-hand corner > select 'Stock'> 'Promotions' and then select the plus sign in the promotions page as shown below.
- Then select the 2 For Deal option from the drop-down menu.
- Because it's for 2 products the discount amount must be an even number.
